Edge profiles

Select an edge profile to complement the style and finish of your Quartz worktop.

Bevel edge

Free of charge

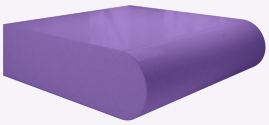

A clean 45 degree chamfer for a contemporary finish.

Pencil edge

Free of charge

A subtly rounded top edge for a soft, modern look.

Full bullnose

Premium option

A fully rounded profile for a soft, classic appearance.

Half bullnose

Premium option

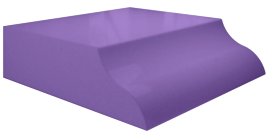

A rounded top edge with a straight underside.

Shark nose

Premium option

A tapered contemporary profile with a softened front.

Ogee edge

Premium option

A decorative S-curve profile for a premium traditional finish.

Mitred edge

Premium option

Mitred and joined at 45 degrees to create the appearance of a deeper, seamless worktop edge.

Pricing note

Pencil Edge and Bevel Edge are FREE OF CHARGE. All other edge profiles shown are premium options.

Hob cut-out options

Choose between a standard non-flush hob cut-out or a flush hob cut-out.

Standard hob cut-out (non-flush)

Free of charge

The hob sits on top of the worktop, leaving a visible edge around the perimeter.

Flush hob cut-out

Premium option

The hob is recessed and fitted level with the worktop for a seamless, integrated appearance.

Please note

All hob cut-outs are manufactured to the dimensions supplied by the appliance manufacturer. Check the appliance installation instructions for exact cut-out measurements, support, ventilation and clearance requirements before production.
